

Our **Movable Additional Storage Structures (MASS)** offer an ideal solution if you have land that is unused, underused or is not yet suitable for permanent construction. Janus International Group helps you save time and money while avoiding inconvenience with this alternative way to expand your space.

INNOVATIVE SOLUTION

Create more usable storage units for idle land without construction processes

SUPERIOR CONSTRUCTION

Produced with the same components as traditional units, so no rust or leakage issues

GOVERNMENT FRIENDLY

Many local governments classify portable units as equipment, so you may bypass permitting

BENEFITS

Same Look and Benefits of Traditional Storage

Quickly Generate Additional Income

- Easy to expand and adaptable to odd lots or slopes

Easily Movable

- Using a 5,000-pound forklift with extended forks

Virtually No Maintenance

- Our 3rd Generation roll-up doors come standard with our preferred dead axle design

Secure and Convenient

Classified as Equipment

- MASS units can be depreciated over seven years
- Standard building permits may not be required (check local ordinances)

Often Allowed Where Permanent Structures Are Prohibited

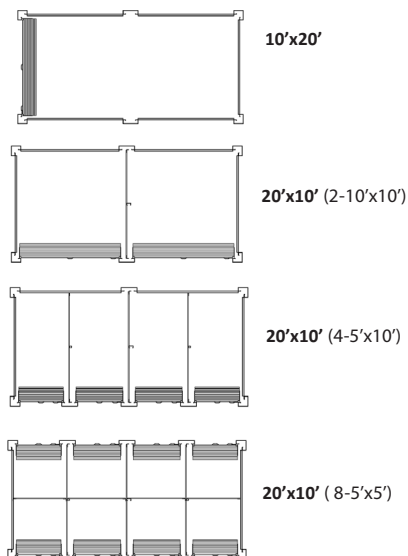

FEATURES:

- Configurable mix on a 10' x 20' or custom size platform
- Sturdy construction featuring all galvanized steel framing
- Continuous 22-gauge galvanized N deck base with plywood flooring (option for diamond plate)
- 125 psf floor load
- Can be anchored to asphalt, wired for electricity
- Uses standard 26-gauge doors in 36 color options
- Standard 30 pound snow load (optional up to 50 pounds)
- Rain lip and elevated floor reduce moisture
- Insulated roofs prevent condensation and regulate the heat/cold
- Skid panel outside the doors offer a non-slip entry
- Units are built close to the ground for easier access

CONFIGURATION OPTIONS

Various configurations available, including single units.
